T.T Road Holla compound Vaderhobli Kundapura Udupi, Karnataka-576201

SUMMARY

3rd-year **Information Science and Engineering** student with a solid foundation in **C, Python, and Java**. Passionate about **frontend development** and **UI/UX design**, with a growing interest in **full stack development** and **artificial intelligence**. Skilled in building **responsive, user-friendly web interfaces** using modern technologies and frameworks. Highly motivated to apply **technical knowledge, creative thinking**, and **problem-solving skills** in **internships, team projects**, and real-world software development environments

EDUCATION

Bachelors of Engineering – Information Science and Engineering	2023-Present
Mangalore Institute of Technology & Engineering. (Autonomous)	CGPA: 9.25
Senior Secondary (12th)	2022-2023
Sri Venkataramana PU College, Kundapura. (KSEEB)	Percentage: 95.6 %
Secondary School (Class X)	2020-2021
Sri Venkataramana English Medium High School, Kundapura. (KSEEB)	Percentage: 98.5%

TECHNICAL SKILLS

Languages: Java, C, Python

Front End Development: ReactJS, JavaScript, Bootstrap, Clerk, HTML, CSS

Back End Development: Express, NodeJS

Miscellaneous: AI, MongoDB, MySQL

Tools: Visual Studio Code, Eclipse, Solid Edge, Pycharm

Soft Skills: Team player, Bias for action, Deliver results

Office Suites: MS Excel, MS Power Point, MS Word.

PROJECTS

Netflix Frontend Clone (HTML, CSS, JavaScript)

- **Developed** a responsive Netflix-inspired interface using HTML, CSS, and Vanilla JavaScript.
- **Designed** dynamic content sections with interactive hover effects and carousels.
- **Utilized Flexbox and Grid** for precise layout and cross-device responsiveness.
- **Optimized UI performance** for faster load times and smoother user experience.

Help2Heal — Doctor Appointment Application | MongoDB, Express.js, React.js, Next.js, Cashfree API

- **Designed** a full-stack healthcare app for appointment scheduling and doctor–patient management.
- **Implemented** secure, role-based authentication for doctors and patients.
- **Developed** real-time booking and availability tracking using optimized MongoDB queries.
- **Integrated** Cashfree API (Test Mode) for online payment functionality.
- **Built** a responsive, accessible UI with React.js and Next.js.

BlogVerse — Full-Stack Blog Application | Next.js, MongoDB, Node.js, REST API, Tailwind CSS

- **Developed** a complete blog platform with public, admin, and backend modules using Next.js and MongoDB.
- **Built** secure RESTful APIs for blog creation, deletion, and category-based filtering.
- **Implemented** an Admin Dashboard to manage posts, categories, and email subscriptions.
- **Designed** responsive UI components and optimized page rendering for SEO performance.
- **Integrated** an email subscription system with admin-side tracking and management.

COURSES & WORKSHOPS

- Certified in **Frontend Web Developer: Modern HTML, CSS, and JavaScript** course on Udemy.
- Certified in **Artificial Intelligence for AII** course by IUCEE Foundation
- Certified in **Crash Course on Python** by Google, Certified in **Introduction to AI**, Infosys Springboard.
- Certified in **Statistics for R Programming** – Infosys Springboard, Feb 2025
- Participated in “**Hands-on experience on Arduino UNO**” workshop at Mangalore Institute of Technology & Engineering, May 2024.

ACHIEVEMENTS & ACTIVITIES

- Selected at the college level in the Smart India Hackathon for the project **Smart Yoga Mat**.
- Shortlisted in **MSME Hackathon** for the innovative idea titled “**Udyog AI.**”
- Participated in Hackfest organized by SAP.
